# ESTANCIA LAGUNA VERDE FISHING LODGE

Estancia Laguna Verde is unmistakably the ultimate fly fishing experience in remote southern Patagonia Argentina, at the world renowned Strobel lake and Barrancoso river. This is why a growing crowd of anglers return year after year for another taste of this amazing fishery -considered by many experts as the Best Wild Rainbow Trophy Trout Fishery in the entire globe.

STROBEL LAKE

With first-class lodging and the best and most varied fishing programs in all Strobel lake plateau, we are the obvious choice for serious anglers looking for a fishing trip of a lifetime. Enjoy exclusive access to miles and miles of the famous Strobel Lake and the amazing Barrancoso River, the incredible Moro creek and over 12 smaller lakes and lagoons that it chains. Come and experience this unrivaled fly fishing adventure, only at Estancia Laguna Verde.

*“The best rainbows on earth” (Peter Cockwills headline, for his march 2015 article at Trout Fisherman magazine, after his last stay at Estancia Laguna Verde, his 4th visit and going for his 7th visit in 2018!!!).*

PETER COCKWILLS, MONSTER BAY, SINCE 2015

A person wearing a blue and white headscarf and a green jacket is crouching on a rocky shore, using a long-handled net to catch fish in a clear, turquoise lake. The water is so clear that the bottom and the fish are visible. The scene is bright and sunny.

WHY COME TO FISH AT ESTANCIA LAGUNA VERDE?

\*When you book a trip with Estancia Laguna Verde, either directly or through our selected list of professional angling travel agencies that represent us, you are booking with the OWNERS of the Lodge and Estancia. No leases or doubtful exploitation permits. No third parties or risky permissions needed.

\*Run and hosted by its owners, who are passionate fly fishermen that love and preserve this magnificent and pristine fishery.

\*Very flexible and varied fishing programs!!! Definitely NO fishing elbow to elbow with 12/14 other guys by your side, throwing huge jigs and gear next to your fly.

\*Strategically located on the south, but also east and north coasts of Strobel Lake, with exclusive access and fishing to:

- more than 25 km of Strobel lake, with over 7 protected bays
- 10 km of Barrancoso River, in its best fishing part, with 3 sections, and 4 beats each one, 2 new hanging bridges, adding even more adventure and fishing
- 12 km of Moro Creek, a slow flowing meandering stream, with spring creek like style and fishing, favourite among early coming visitors
- 12 smaller lakes and lagoons chained by Moro creek

\*Fly fishing only lodge.

\*Top-notch hardcore guides addicted to sight fishing.

\*World-class lodging, with single rooms available at no extra cost.

\*Personal attention of our friendly and professional staff.

\*Improved and agile Road System of over 50 km guarantees you will be in the water in no time, as well as unlimited combinations of programs in each day of fishing.

\*Excellent cuisine provided by our exclusive chef and sous chef. Carefully planned menu of typical Argentinian meals, great “asados” (bbq’s), famous Patagonian lamb, and the finest international dishes.

\*Outstanding wine cellar with renowned wines from Mendoza and other parts of Argentina, personally selected by us.

\*Obsession for details!! We share the same passion and enthusiasm that moved you to travel all the way from home to southern Patagonia for the experience of a lifetime, and we want to make sure every detail of your stay is well taken care of so that you have a truly unforgettable fly fishing experience.

THE FISHING

22

## THE FISHING

Unlike other operations in the Strobel area, Estancia Laguna Verde challenges visiting anglers to fish new beats every day of the week, combining varied locations and using different techniques targeting the best fishing with the most rewarding methods.

Estancia Laguna Verde offers the best and most diverse program in all Strobel and Southern patagonia, which translates into an amazing and unique fishing experience, with a growing rate of **over 55% of repeat clients!!!!**

## STROBEL LAKE

After several seasons of hard work, we can now take you along more than **25 km of the pristine waters of Strobel Lake.**

The scenery is breathtaking and the fishing, out of this world! Wind can become a factor, so protected locations are crucial. You will be able to access many bays and protected spots such as Monsters Bay, Camelot Bay, Finger Bay, Moro Bay, Tasmania Bay, Sea Bay, Puesto Bay, The Aquarium and Dry Fly Bay, among the most famous spots. Fishing these sheltered waters ensures you enjoy outstanding sight fishing action even in the hardest of conditions.

## BARRANCOSO RIVER

In order to understand the advantages of fishing at Estancia Laguna Verde, it is important to understand the geography of the area, and Barrancoso river in particular, so to not be deceived by misleading publicity by a few specific outfitters with a short term mentality.

With a total length of about 50 km, it is important to note that only the last stretch holds consistently big fish, especially in the prime months. This last stretch of the last 10 km of this amazing river, are the ones that go through Estancia Laguna Verde (both banks!), with our property ending a short distance from the last 3 / 4 pools of the river before it drains into Strobel lake.

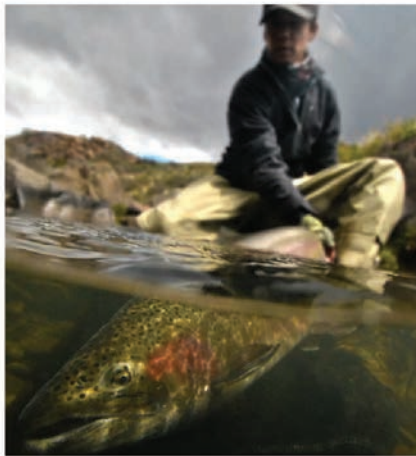

Without a doubt, one of the highlight programs at our Estancia, Barrancoso River, is the one and only tributary of Strobel Lake.

As mentioned before, this beautiful freestone river runs for more than 10 km through our Estancia in the single best part of it!!!! There are no other parts of the river like this one, and there are no other trophy waters like ELV waters.

Only a handful of anglers staying at Estancia Laguna Verde, get the chance to fish the best pools and runs of this one of a kind river, which many experts consider to be the very best rainbow trout trophy water in the world!!!! We always remind guests that Argentinean regulations do NOT allow fishing in the river mouth and its surrounding 100 meters.

Estancia Laguna Verde fishes this dream-like river with its crystal clear waters and amazing runs of huge trout in 3 different sections -upper, middle and lower. With the addition of 2 hanging bridges over the river, our guests are able to access even the most remote pools offering outstanding angling.

*“Barrancoso river is without a doubt the best trophy rainbow trout river in the world. And by far, the best part of this river runs through Estancia Laguna Verde property... which means that ELV lodge offers the best trophy rainbow trout river fishing in the world.” Quote from Marcelo Morales comments on fishing at Estancia Laguna Verde.*

## MORO CREEK

Discovered only a few seasons ago, Moro Creek is a spring creek-like stream which runs long through Estancia Laguna Verde, chaining over 12 small and medium size lakes in our property. This awesome creek runs mainly during spring and summer, and it has, little by little, won the hearts of many of our guests, becoming a favourite among early and mid season visitors. The Estancia fishes 5 sections of this unique creek as well as the inlet and outlets of several productive lakes such as Ocho, Los Flacos, Campamento, Los Chanchos and La Reja.

## SMALLER LAKES AND LAGOONS

By northern and central Patagonia standards, many of the so called “lagoons” at Estancia Laguna Verde would fall under the category of lakes, which is actually what they are! Fed by Moro creek, this amazing system of chained small lakes in Estancia Laguna Verde is an aspect many times overlooked in the quest of catching some of the largest rainbow trout in the world! Nothing to blame or argue about it, though. But we feel obliged to mentioning that these lakes can offer some of the most exciting stillwater fishing for resident brown trout, brook and rainbow trout in Argentina, which, combined with Moro creek, make a blast program, any day of the week.

# THE LODGE

On the shore of beautiful Green Lake, stands Estancia Laguna Verde Lodge, perfectly located to allow you to reach quickly all the fishing spots available all around our 45,000 acres property.

The fully upgraded Lodge main building is a typical “Estancia house” accommodating 10 to 12 anglers per week. It has 10 single and double bedrooms with comfortable “en-suite” bathrooms. We also offer single lodging and guiding for a special fare, if you require it.

Inside the house you will be able to relax after a hard and exciting fishing day on one of our guest's favourite spots at the lodge, its spacious living room overlooking Laguna Verde. Enjoying a glass of a great wine or a refreshing cocktail you can warm-up for dinner. This cosy room has a 42' LCD TV with satellite connection and a DVD player for your enjoyment. A fly tying desk is available too so [u3] that you can stuff your fly boxes with a new set of flies after missing many in the thousand rocks there are all around. Or you can go for the library and relax, reading great books!

To ensure you have all your fishing gear dried and ready to hit the waters every day we have built a changing room / drying facility at the entrance to the lodge to use [u5] before and after fishing.

At the Lodge, you can also enjoy Satellite IP telephone, free unlimited wireless Internet access and access to a computer if needed. Windmill generators (and back-up fuel generators) guarantee the energy demands of the Lodge, providing electricity (220 volt.) 24/7. Laundry service is provided twice a week.

The Lodge is located 100 meters from Verde lake, 15 minutes from Strobel Lake, 5 minutes from the Barrancoso River middle section, 20 minutes from the Barrancoso River lower and upper sections; 5 to 30 minutes from Moro creek, and 10 to 30 minutes for lakes such as Potrero, Texas, Horseshoe, depending the section and area of the Estancia you are fishing.

FISHING TACKLE

At ELV, we value the idea and concept of sight fishing with floating lines. All our fishing programs are designed to try to obtain the best results, with the most rewarding style of fishing.

With that in mind, about 95 % of the fishing throughout the season is done with floating lines. In certain spots and in special conditions, our guides suggest sink tip lines or adding a sink tip poly leader, to work specific spots with fish cruising at sight deeper in the water column.

For a full description of the fishing tackle used at ELV, please request our pre-trip tackle suggestions.

OUR FISHING GUIDES

Our seasoned top-notch professional guide crew, sight fishing oriented and with as many as 8 seasons guiding with us (that is a lot for an 11 year old lodge!!!), all English-Spanish speakers are ready to share with you their invaluable fly fishing expertise.

A close-up photograph of a person's hands holding a speckled trout. The person is wearing a tan jacket and a dark blue sleeve. A blue tape measure is stretched across the fish's body, showing measurements in inches. The fish is held over a body of water, and a small drop of water is falling from its tail. The background is a blurred outdoor setting.
